

Applying for a Kashable loan is easy.

Application is quick and easy. Employees can complete the entire process online in just a few minutes. Here's how:

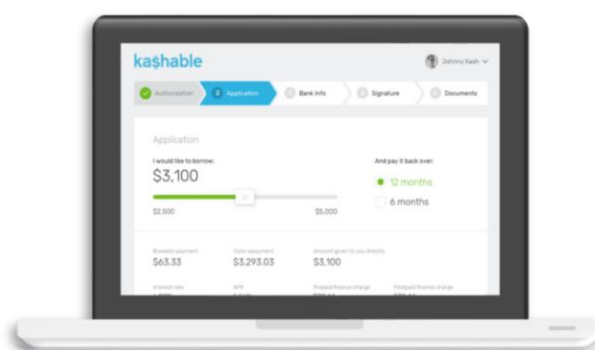

1. Register and Check Your Rate

Create an account at kashable.com and verify your personal mobile phone number, personal email address, and employment. **Before you apply, you can check your rate and loan terms without affecting your credit score!**

2. Apply Online

Authorize Kashable to check your credit. Select your desired loan amount and review the repayment amount and costs.

If you're happy with your loan terms, provide your bank information so Kashable can deposit the loan amount. Then sign the agreements electronically.

3. Set Up Repayments

Equal installment loan repayments are automatically deducted from your wages. You can also repay your loan early with no penalty. If on unpaid leave, you can reach out to Kashable to set up repayment outside of payroll deduction until you return to work.

4. Receive Funds

Funds are disbursed electronically into your bank account on the next business day.

Access Our Financial Education Library

Just register online at kashable.com and verify your employment to access personal finance tutorials, courses, calculators and more - no loan application required.

Apply whenever – there's no open enrollment!
