

MEMBER SPOTLIGHT:

Deniece Gray - Forney, Texas

Tell us a little bit about yourself. What is your role at the company? How long have you been in your role?

My name is Deniece Gray and I live in Aubrey Texas. I am a wife and a mother of four grown children. I have been with Inframark for 4 years now working as a Customer Service Representative.

Why did you decide to use MedPut for your bill(s)?

I decided to use MedPut because I had some medical & dental bills with some in collections.

How would you describe MedPut?

I would describe MedPut as one of the best programs that I ever come into contact with.

How has MedPut impacted you/improved your life?

MedPut has become a go to resource, a savior to help with my medical bills. As a result of MedPut paying a bill that was in collections, I saw an increase of 15 points to my credit score. I also recently used MedPut Plus for the first time, where I was able to replace some cabinets in my home.

What type of person would benefit most from MedPut?

I would say anyone who is having trouble keeping up with their bills or has bills in collections.

What would you say to somebody who was thinking about using MedPut but hasn't used it yet?

I would tell them to give it a try. I know some people can be skeptical about trying new things, even I was skeptical. But it really is such a great program. And with the addition of MedPut Plus the program covers such a wide array of bills, why not use it!
